Furnishing of Report Regarding Experiential Learning

Concept: In the departmental meeting, we teachers agreed that geography students should be more closely connected and attached to the environment. We need to try students for experience gather from hands-on real-life experience to expend their knowledge and improve for their future because day by day our students are mostly held up in the sole exam method. In light of this, we decided that our Honours students in the second semesters would engage in experiential learning methods through a Greenery Activity as a part of Ecological Consciousness.

For the Academic Year 2021-2022

In order to improve programme or course-based learning outcomes, experiential learning is the practice of applying theory and academic content to real-world experiences, whether in the classroom or in the community. By tackling challenging, perplexing real-world challenges, this kind of curriculum enables students to apply what they have learned in the classroom to real life scenarios. In order to achieve this goal, Surya Sen Mahavidyala Geography students adopted 'A Tree' in their home, neighborhoods, or geography department, engaging them with hands-on "Experiential Learning." Beginning this day, April 4, 2022, they set out on their voyage.

Since last few decades, we have all been dealing with various effects of climate change. We are all aware of the enormous changes to the climate that occur every day. How uncontrolled urbanization is expanding, the effects we have seen on the environment, and the way it is destroying our natural vegetation cover. Environmental pollution, the effects of global warming, and solutions to mitigate them are topics we constantly teach our children in classroom. But this time, we made a real effort to teach them how to take care of a tree. Because if they care for a tree now, they will likely inspire others to do the same in the future, and if that happens, we might one day be making very little environmental impact. It is an ongoing thing. Their action was described as a "Greenery Activity."

The students participated in a group discussion on the same topic on the same day, where each and every student shared their views and development prospects. The students' enthusiasm and energy were visible in the session's vibrant interaction, and the conversation helped to make this program more effective.

Summary of the counseling: The following suggestions for future development were provided to the students: comprehensive study materials (for consultation). We shared study materials and a variety of website links with them in their Google Classroom and official Whats app group for their up gradation. Additionally, we provide links to various publications, webinar videos, and research articles. To perform more challenging assignments (in accordance with their practical curriculum). It was advised that they concentrate more during class.

Based on their academic performance, we scheduled a second counseling session for them on April 4, 2022, for their 2nd, 4th, and 6th semesters.

Report on Advanced learner and slow learners

During the academic session 2021-2022, the teaching- learning method was mostly through a blended mode. The department of English, in order to identify the advanced learners and slow learners, depended on the following parameters:

- Students' performance in internal assessment which was conducted in the written form, viva and sometimes group discussion
- Performance in the university examination
- Their interaction in the class on the lesson taught
- Communicative skill
- Originality of expression in their assignments
- Usage and understanding of study materials and its reflection in their answers

After observation, based on the above-mentioned points, following students from **odd semester** were identified as **Advanced Learners**:

Measures adopted by the department to improve the quality of advanced learners:

- Advanced learners were encouraged to indulge in research activities and to write seminar papers for students- centric seminar. Advanced learners like Paushali Sarkar, Srijeeta Choudhury, Madhusri Ghose, Smriti Tamang, Riya Pradhan, Diya Subba etc were able to understand this plan and they successfully presented papers in the seminars.
- These students were also encouraged to express their ideas through creative writings in the form of poems, essays etc. Thus, they were able to present their self-written poems during the workshop on eco- poetry held during April, 2022.
- To excel in the university exams, they were helped to identify their weaknesses and

Planning and Strategies for Advanced and Slow Learners:

1. Extra classes were arranged for both advanced and slow learners. Apart from the extra classes department arranged special classes especially for the slow learners.
2. Special classes were held for slow learners and topic were explained in Hindi and English and Bengali.
3. The teachers of the department are always available for all the students; they could contact any teacher if they had any problems.
4. We have shared reading materials like pdf books, article for every topic.
5. For advanced learner we share different information like how to prepare for different central university exam for doing masters, previous years question paper of different universities.

Report on Departmental Planning and strategies for advanced and slow learner.

Two types of students are identified based on class attendance, response to subject questions and marks obtained in class tests. Two types of students are advanced learners and slow learners. There are some difficulties in teaching slow learners with advanced learners. Slow learners cannot understand quickly than advanced learners. Therefore, slow learners need to be guided in a different way outside of the routine. Similarly advanced learners need to be guided differently to get better results. The department of Bengali has made some plans for two types of students.

Policy Guidelines for Advanced learners

1. Advanced learners are motivated by the teacher for higher goals. The faculty provided with additional inputs for better career planning and growth through offering special classes for them .
2. Motivating them to involve in higher studies aspirations.
3. Helping them to participate in group discussions, and arrange class test.

Policy Guidelines for Slow learners:

1. Faculty of the department help the slow learners with proper guidance and mental support to them.
2. Take extra classes.
3. Slow learners are specially advised by teachers.
4. Corrective classes are conducted for the weak students basis on the results of class test.

REPORT ON

DEPARTMENTAL PLANNING AND STRATEGIES FOR ADVANCED AND SLOW LEARNERS

Advanced and slow learners are identified based on their average performance in the class tests which have been conducted in a regular intervals of time. Separate classes have been arranged for advanced and slow learners according to their needs. Slow learners were given extra care to clarify their doubts and related materials have been provided through google classroom.

Measures were taken for improving the academic performance of advanced learners:

- i) Guiding and encouraging to read research papers.
- ii) Guiding the students for JAM/Competitive Examinations.
- iii) Discussion on advanced topics related to the application part of theory taught in the classes.
- iv) Encouraging to participate in various activities like quizzes, poster presentations, Conferences, inter-institution competitions etc.
- v) Organised invited lectures to create interest on them for further study in future.
- vi) Organised student seminar presentation to develop communications skills and confidence level among students.

Measures were taken for improving the academic performance of slow learners:

- i) Special classes and tests are conducted with an appropriate focus on the topics in which the students are found to be slow learners.
- ii) Notes and recorded video lectures on important topics were provided.
- iii) Individual academic counselling is done by the concerned teacher.
- iv) Personal counselling is done through the mentoring process which takes care of the students to maintain the entire academic record of the students. They are also counselled and motivated by mentors.

Details of measures taken for improving the performance of advanced learners:

We organised some special classes for advanced learners to motivate them to learn more advanced topics beyond the syllabus. For that, we also organised an invited lecture to motivate and develop interest of students in subject areas. With the aim to develop confidence levels and communication skills among students, we organised a student seminar presentation.

Details of measures taken for improving the performance of slow learners:

We have organised some special classes for slow learners to clarify their doubts on the topics in which they are slow learners. In addition to that, we also provided study materials in the form of pdf as well as recorded video link in the google classroom.

List of slow learners:

The image displays three screenshots of a Google Classroom interface. The top-left screenshot shows a class page for 'Semester I (HCC-0) Modern Course' with a post by Phurba Tamang titled 'Phurba Tamang posted a nice material: Asymptotes'. It includes PDF files for 'Asymptotes 1.pdf', 'Asymptotes 2.pdf', and 'Examples of Asymptotes... PDF'. The top-right screenshot shows a class page for 'Semester II (HCC-VI) Unit 7 onwards' with a grid of video thumbnails for 'Class HCC VII (2021-08-...)' and a 'Notice' section with instructions for an internal exam. The bottom screenshot shows a class page for 'Sem 5 DSE 1 Probability and Statistics' with a post titled 'Chapter 07 - Statistics - Estimation of Parameters - Class Work' by Anirudha Palit, including a PDF for 'Estimation of Parameters.pdf' and a 'Class comments' section.
