Date: 13.09.22

Event Name: Workshop on 12th & 13th September 2022.

Title: 2-day workshop and hands-on training session on Q-GIS, GNSS, and Google Earth Engine.

Objective: To give exposure to the participants with a theoretical and practical understanding of the software tools and techniques.

Event Report: On September 12 and 13, 2022, the International Institute of Geospatial Science and Technology (IIGST), a constituent unit of SAIARD and an independent academic and research institution, conducted a 2-day workshop and hands-on training session on Q-GIS, GNSS, and Google Earth Engine. They started their voyage to North Bengal in collaboration with IQAC and the Surya Sen Mahavidyalaya Department of Geography. A "MoU" was signed with Surya Sen Mahavidyalaya.

2-day workshop and hands-on training session on Q-GIS, GNSS, and Google Earth Engine

Biswajit Roy Chowdhury, Chairman of SAIARD and IIGST, participated in this event as a resource person. Participants in this programme include research scholars, students from other colleges, and our own students. About 50 people registered for this 2-day workshop. The students installed the software on their own laptops and learned and practised with a resource person. The session's vibrant interaction and debate were evidence of the students' enthusiasm, and their questions and queries showed how much more of this type of workshop they need.

Total Participants: 50
